Dietetics**

ACD 2022

August 19_(Fri.) - 21_(Sun.), 2022
in PACIFICO Yokohama

**Realizing a sustainable healthy society
for a bright future in Asia**

-Responding to modern problems and confusion in nutrition information-

<https://www.acd2022.org/en/>

Message from the Chair of The Organizing Committee

Let's gather together in Yokohama and make innovation in nutrition and dietetics.

The diets of Asian people is changing drastically due to remarkable economic development and globalization.

This change resolve malnutrition caused by poverty, but it does not make everyone healthy. Meanwhile, the regional and economic disparities, the collapse of traditional culture, and the confusion of foods and information are occurred complicating the nutritional problems. These problems become difficult to solve in one country, cooperation between Asian countries is needed. For the future of the Asian people, let's gather together in Yokohama and make innovation in nutrition and dietetics.

Teiji Nakamura PhD. RD
Chair of the Organizing Committee

About Yokohama

Yokohama is the second largest city in Japan by population after Tokyo. The total population of Yokohama is 3.7 million. It lies on Tokyo Bay, south of Tokyo. Yokohama is known around the world for its beautiful natural scenery and townscape.

Yokohama, is the first harbor city introduced to the world as the entrance to Japan. Since the time its port was opened, Yokohama has been vigorously acquiring new cultures and information from foreign countries and introducing to Japan our country's first-time-ever things from food to a wide range of cultures, which entitles Yokohama as the birthplace of Japan's modern culture.

Venue

The Pacifico Yokohama is located in the heart of Minato Mirai 21 area, where numerous hotels, shopping malls, and fine art museums as well as many other amusement facilities are located. It takes about 30 minutes from Haneda International Airport by train.
